

UNIVERSAL PARENTING PLACE

at Leland Medical Clinic

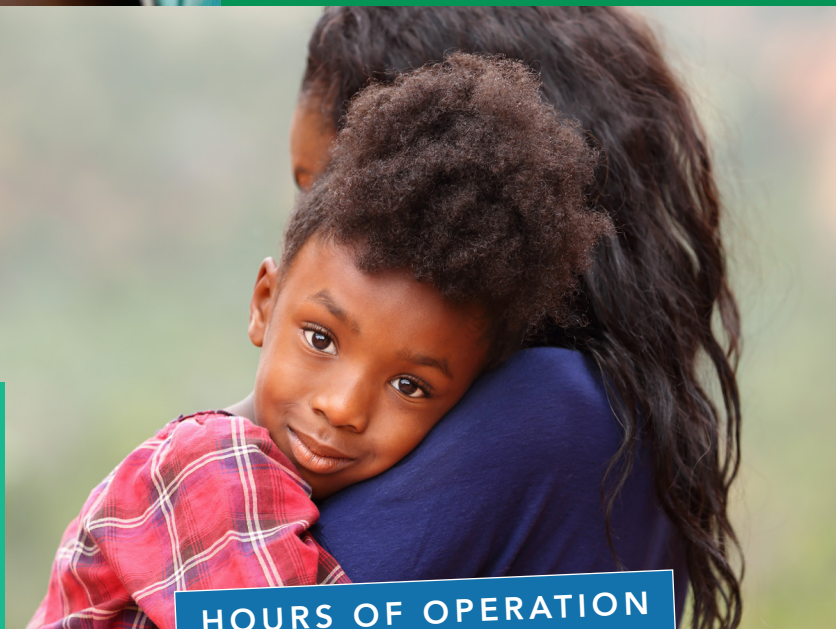

Delta Health Alliance opened the Universal Parenting Place on June 1, 2017 through a partnership with ACE Awareness created to provide resources to families in the MS Delta. Our goal is to support families in their efforts to prevent adverse childhood experiences (ACEs) which can have a lasting negative impact on children and their future well-being.

The UPP @ Leland Medical Clinic is a judgement-free zone for parents to seek support for family-related issues, no matter how small.

SUPPORT SERVICES

- Individual and family counseling
- Support groups
- Free community activities for children and families
- Referrals to community resources
